

King Bed Frame Assembly

King Size Step #1

Parts Needed:

1 Head Base (Total of 4 in the Box)

1 Centre Base (Total of 2 in the Box)

Centre Base has the most amount of slots

7 Bed Slat (Total of 35 in the Box)

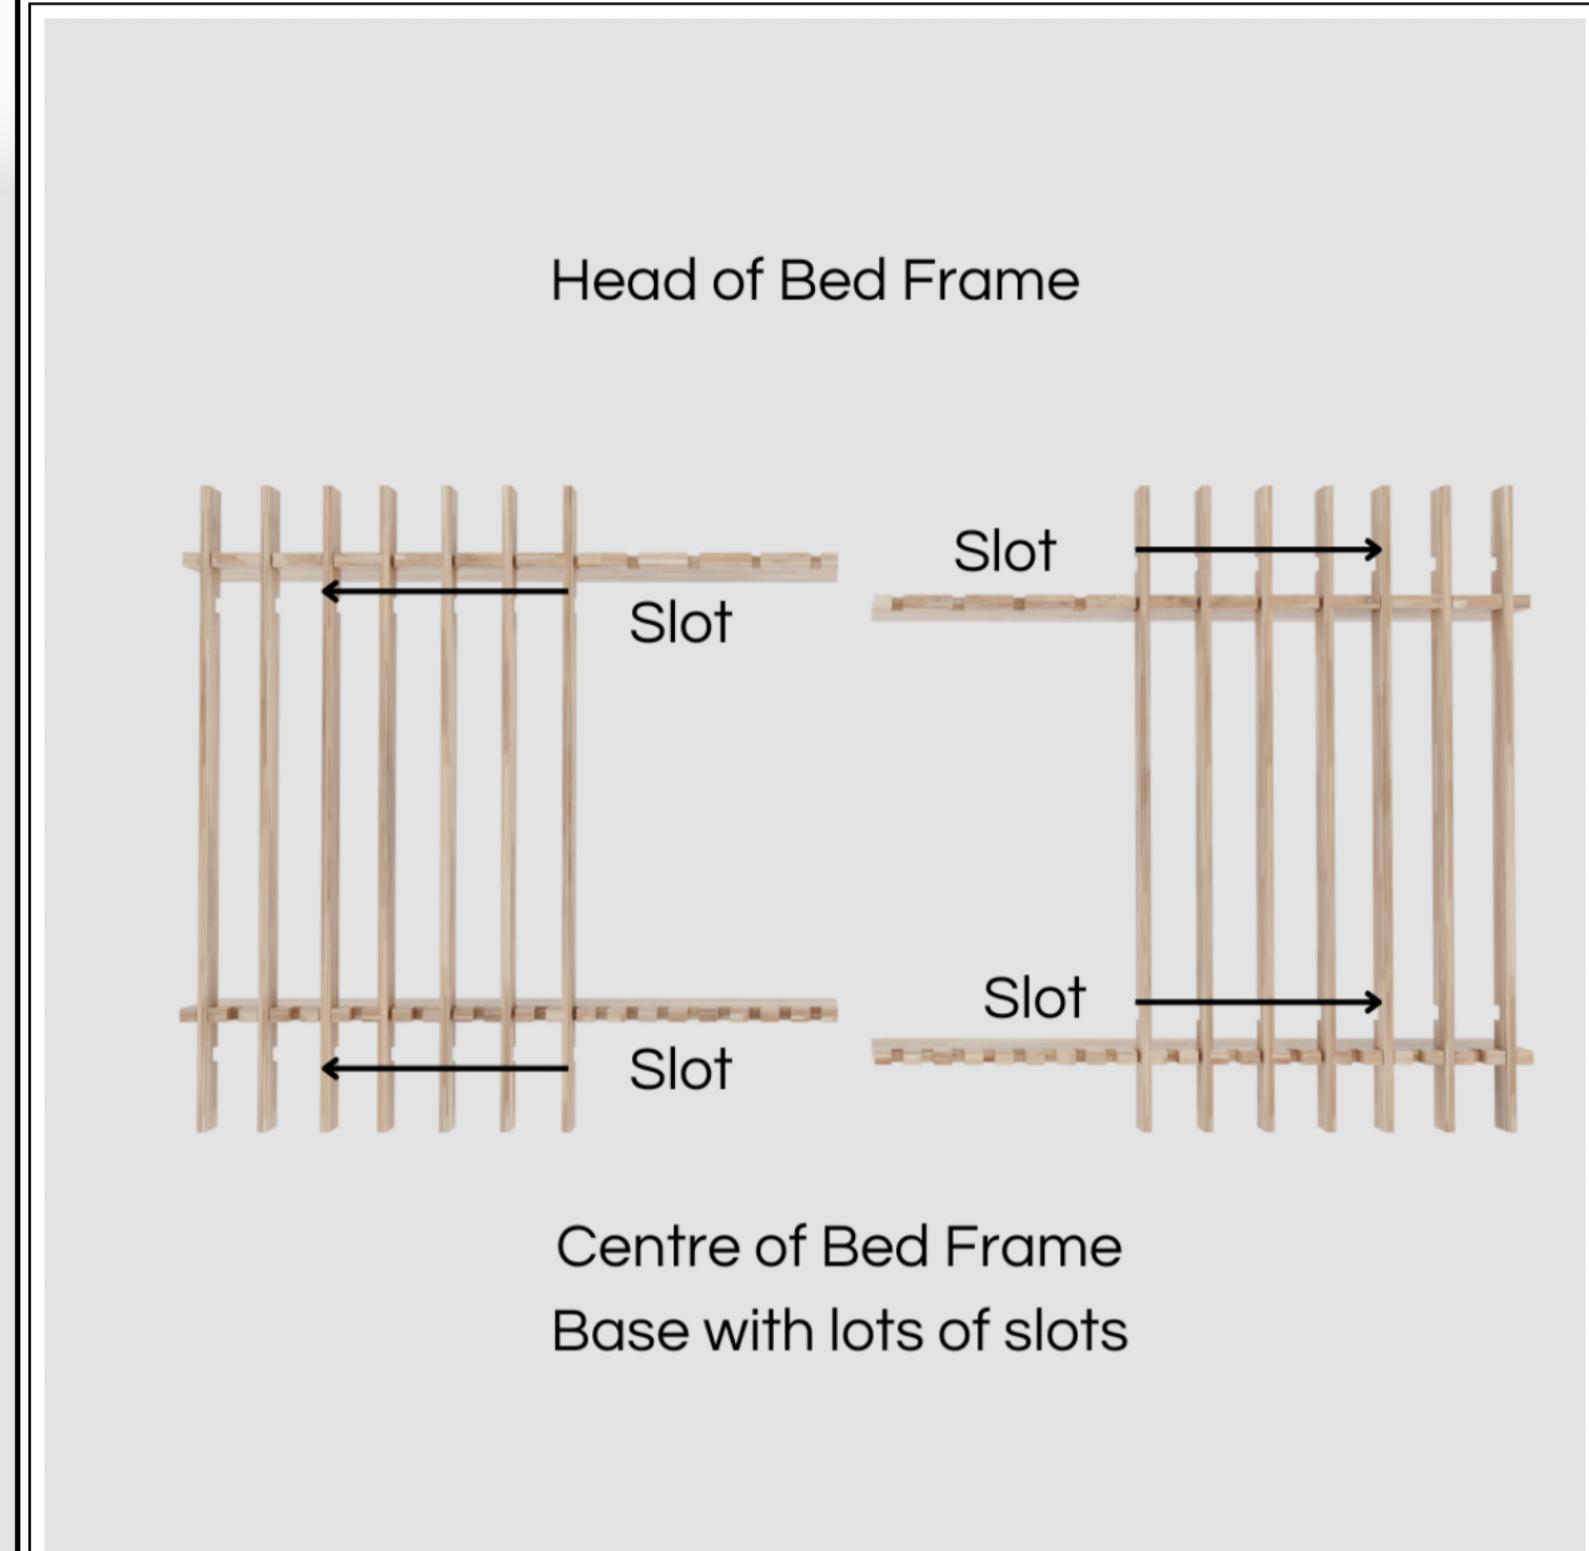

Assembly Step:

Insert 7 Bed Slats in Head Base and Centre Base.

Use outside slot on head and

inside slot on Centre Base.

Push into bases evenly, not on a angle.

King Size Step #2

Parts Needed:

1 Head Base (Total of 4 in the Box)

1 Centre Base (Total of 2 in the Box)

Centre Base has the most amount of slots

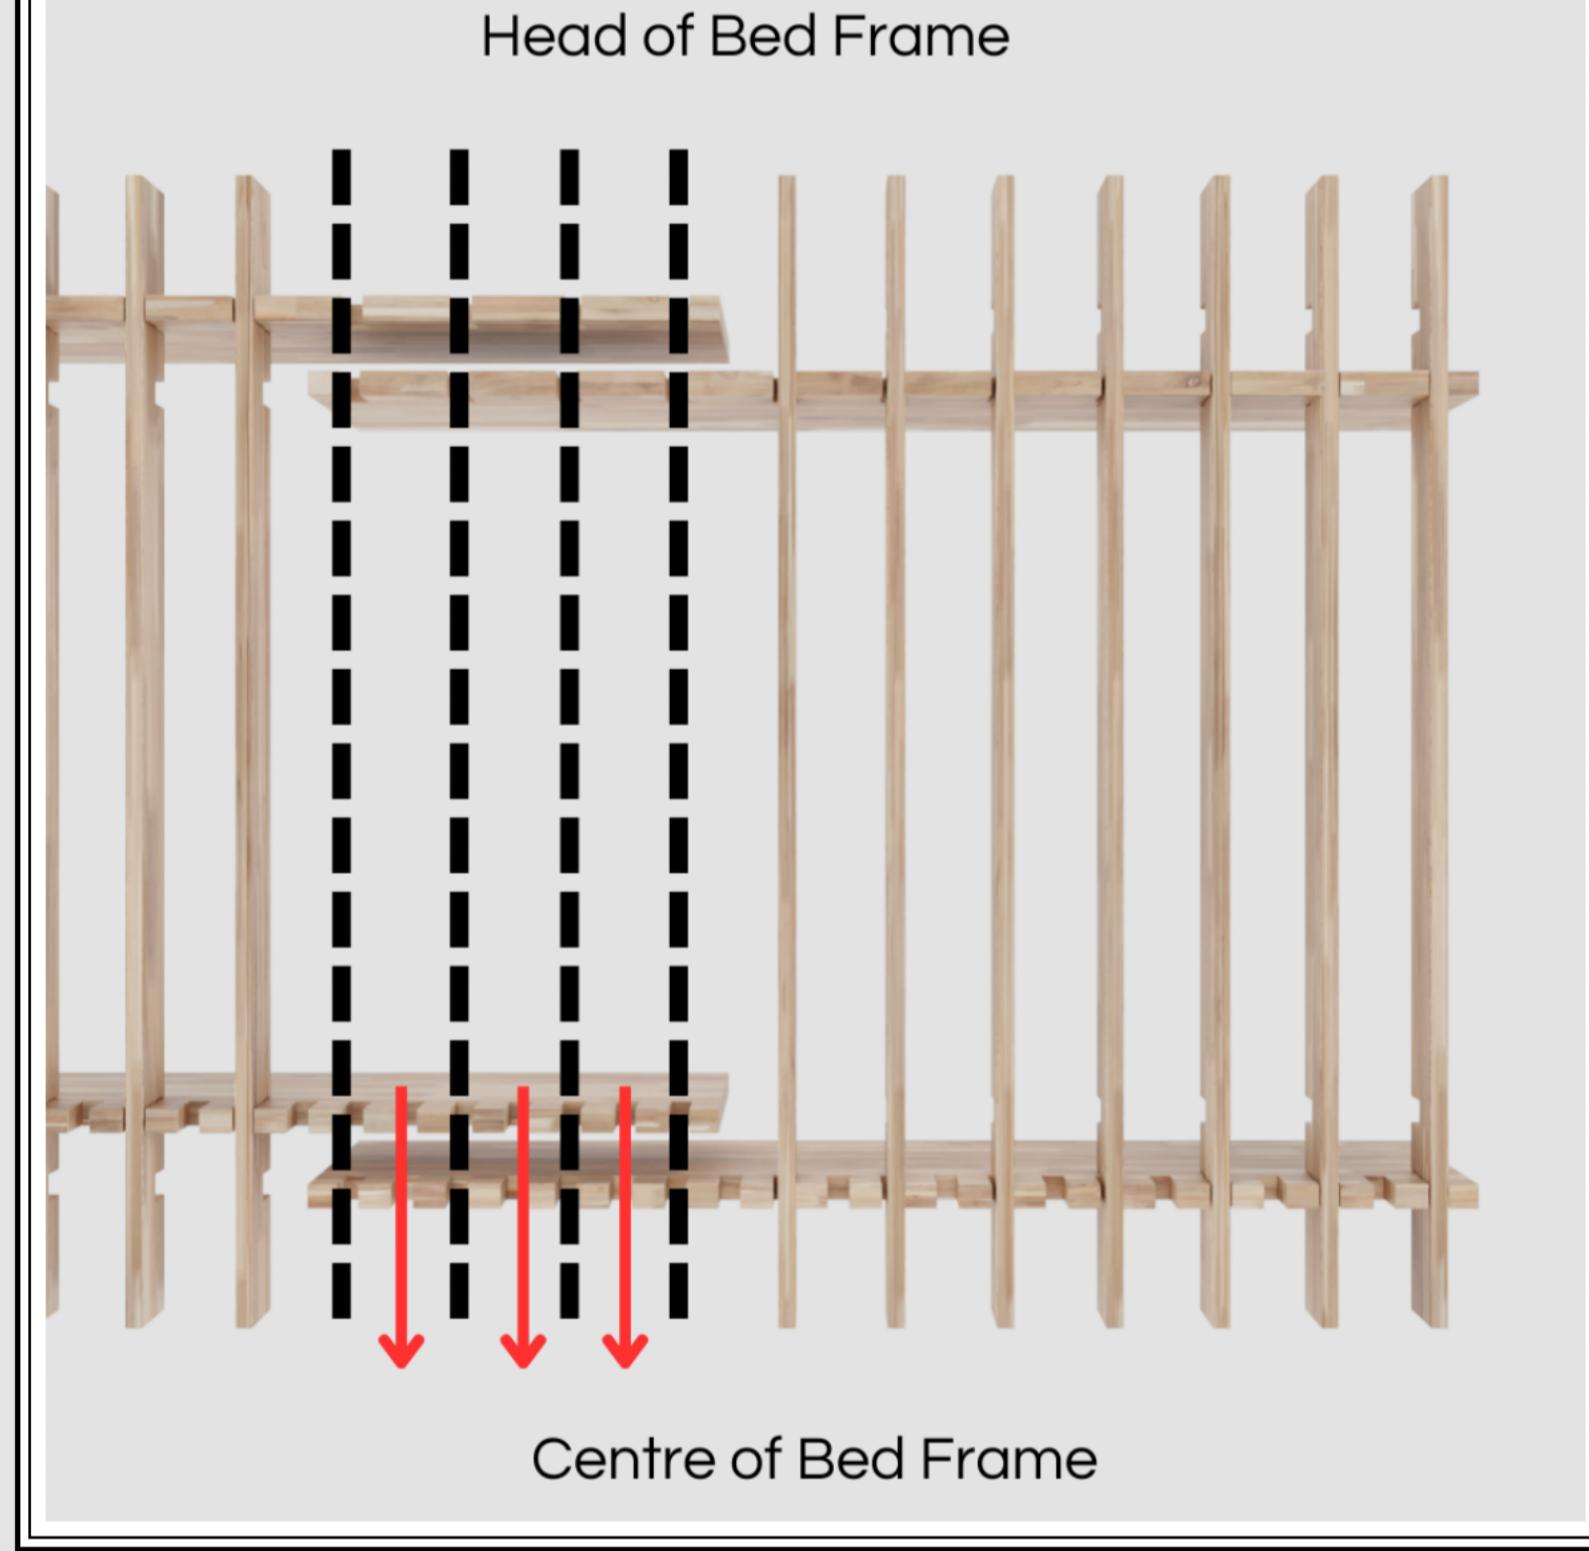

7 Bed Slats

Assembly Step:

Similar to Step #1, Use 7 Bed Slats and insert on Head Base and Centre Base.

This time you will use the other slots on the Slat.

Note in picture where the slots are located. Align the pieces as shown in the picture for ease of assembly.

King Size Step #3

Parts Needed:

4 Bed Slats

Assembly Step:

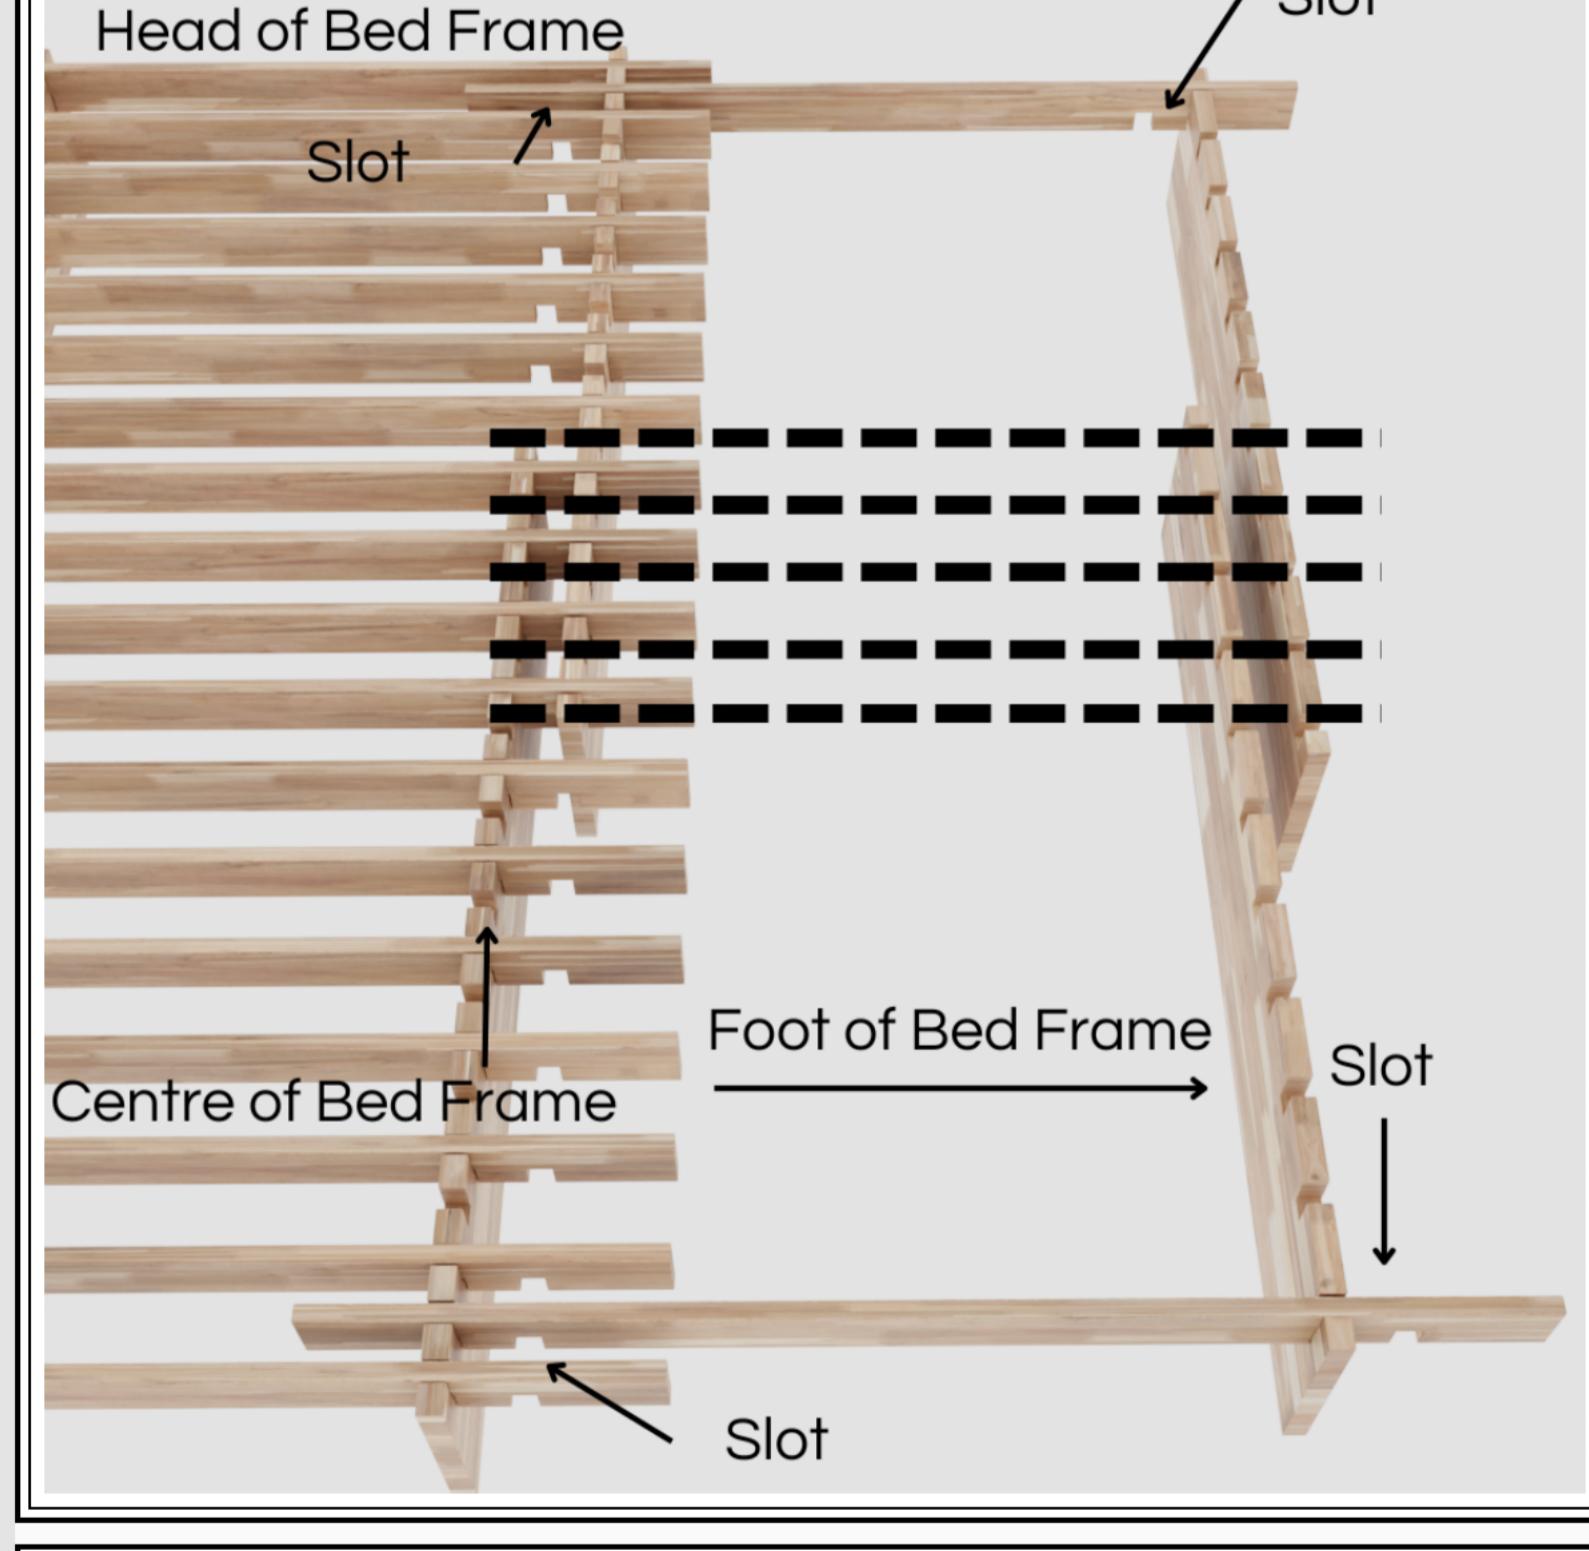

Slide the two pieces together that you have built, as shown in the picture.

The **black dotted lines** are the Bed slats that overlap the 2 Head Bases and the 2 Centre Bases.

Total of 4 overlap Head and Centre Bases.

Insert the 4 Bed Slats as per the picture

The **RED Lines** are the for the next step and will be the slots connect to the foot of the bed frame.

King Size Step #4

Parts Needed:

2 Head Base (Total of 4 in the Box)

2 Bed Slats

Assembly Step:

Place the 2 Head Bases next to each other.

Use 1 Bed Slat and attach to the 1 Head Bases, and the second Bed Slat to attach to the other base.

As per the picture. Take note of the slot positions.

Black Dotted Line is where the overlapping Bed Slats will

Total of 5 Overlapping slats on the foot of the bed.

King Size Step #5

Parts Needed:

15 Bed Slats

Assembly Step:

Insert Remaining Bed Slats on the Centre Base

5 will overlap the 2 end bases

and 10 for the remaining Bases as shown in the picture.

Ensure all slats are seated into the bases.

Last and Final Step!

Add a Mattress and Enjoy!
